CURLING CLUB CONCERT.

The entertainment given on Tuesday evening last, from a musical and literary standpoint, was a decided success.

It is to be regretted that the attractive programme offered did not produce the desired effect, but owing no doubt to the inclemency of the weather and this entertainment following so closely after the dramatic performance the hall was not as well filled as it might have been, but those who were there certainly enjoyed a treat in this line seldom offered to a Prince Albert audience.

The first number on the programme, a cornet solo by Mr. McKay, was well rendered, and well received by the audience.

Number two, solo and chorus, was fairly well rendered, but would have been much improved by a few more male voices, the ladies voices being a little too powerful for the basses and tenors.

Miss McGregor sang to the entire satisfaction of the audience, her first song bringing forth a hearty encore to which she responded by singing "Yes Sir."

For number four was substituted a curling recitation by the president of the Curling Club, Mr. T. N. Campbell, which fairly took the house by storm.

Probably Mr. McLellan's song was the most popular number of the evening, his representation of the old man being perfect. Amidst a storm of applause he repeated the last verse of his song.

"The Chafers" by Messrs. Jones, Neely, Clarke and Johnson, was well received. If Mr. Johnson's bass was a little more powerful, it would be difficult to find a better combination for a male quartette. This piece however, was very prettily sung and well received.

Mr. Jones in his song "I sought the Brake and Bracken" showed this gentleman's tenor voice to be all that any audience could desire. His words however, were not as plainly spoken as they might have been.

Mr. Cann opened the second part of the programme by the "Overture to Semiramide" in a manner as only Mr. Cann is able to play. It was a beautiful piece of music well executed. Mr. Cann is to be congratulated on being able to make a Prince Albert audience appreciate a good piano solo. We draw this reference from the good order kept in the back of the hall during the rendering of this selection, there being only one interruption by some one who would be more at home somewhere else than in a concert room.

Miss Hill's reading was short and spicy, and loudly encored.

Mrs. Mack's encore to her first song was well received, and her second song well received.

Mr. Neely as Prof. Bascum, was very amusing to the audience and caused considerable merriment. We hope to hear him often as a concert player.

Capt. Norman's songs were well rendered and very much appreciated by the audience.

The duetts by Messrs. Jones and Johnson delighted the audience. We have never heard these gentlemen sing better.

The anvil chorus was well rendered for such a small number of performers, the time being very good. Mrs. Porter, Miss Hill and Mr. Cann played the accompaniments. On Miss Hill fell the heavy part of the work.

We understand the curlers and others who have been ably assisted by Miss Hill contemplate offering her some token of appreciation of her services, (a good idea gentlemen). If we may be allowed to suggest a benefit would be a fitting way and we are sure the citizens will give her a bumper house.

This entertainment taken altogether was perhaps one of the most enjoyable ever presented by a Prince Albert audience.

CURLING.

The adherents of the besom and stanes in Prince Albert are getting excited and beginning to enthuse in great style, and any afternoon or evening the ice of the rink may be seen crowded with players of the roarin' game. Monday evening two rinks skipped by Dr. Bain and vice-president Neilson, contested hotly for supremacy. The doctor's rink was victorious by a few (9) points. Calgary, Jan 3.—The funeral of the late Col. Wm M. Herchmer took place to day and was the largest ever seen here. The cortege left the barracks at 3:30 this afternoon and was preceded by a firing party of forty policemen, followed by the remains on a gun carriage drawn by two white and two black horses. The pall bearers were Major Walker, inspectors Davidson and Snyder, Surgeon Fraser, Supt. McIllree and Col. Irvine. Next followed the riderless steed Col. Herchmer's favorite horse, and the chief mourners, Commissioner Herchmer, Hayter Reed, Indian Commissioner, Supt. Jarvis, Fred. Stimson, Judge Rouleau, Dr. Rouleau, W. R. Hull, Geo. K. Leeson, E. Hodder, J. J. McHugh, C. C. McCaul, four staff sergeants of the Mounted Police and over 100 carriages. The streets were crowded their entire length from the barracks to the Cathedral Church of the Redeemer, where services were conducted by Lord Bishop of Saskatchewan and Calgary assisted by Rev. A. W. F. Cooper. The remains were removed to the English school building where they were viewed by hundreds of citizens. Flags were flying at half mast all over the city out of respect for the deceased. The remains will leave for Winnipeg to night where they will be interred on Wednesday at St. John's.

The early closing movement is again under consideration. There is no money in burning coal oil these hard times.

We have received a copy of the new liquor bill, but have not had time to master its contents. Fifty-seven pages requires time to wade through it.

The old custom of making New Year's calls was kept up this year with great spirit. From early morn till late in the evening the jingle of the merry sleigh bells was heard as the boys were making their merry rounds.

IMMIGRATION.

The annual report of the Town Immigration Committee which appeared in last week's TIMES contains important and gratifying information to those in sympathy with the work carried on by members of the committee, all of whom have by their untiring efforts to promote immigration here proved themselves true friends of, and active workers for Prince Albert district, and the large measure of success that has attended the efforts put forth in the past should be an incentive to further exertion and work in the same line, though on a much more extensive scale during the coming season. When we take into consideration the large number of persons desirable settlers who have by through the instrumentality of the committee) taken up land here during the past year, to ascertain at the same time the comparatively insignificant sum of $827 only has been at the disposal of the committee, we are fully warranted in stating that the amount this sum will be quite adequate for the needs of the town for 1892, and it is but fair in view of what has already been accomplished by organizations concerned will feel that the duties from whom the committee should deal most liberally the committee. The Town of Prince Albert will speak for itself present its own advantages to the settler when once he understands, but an energetic and liberal distribution of funds is necessary to compete with other districts in attracting the attention by means of agents, through the press, otherwise, of the army of settlers who, induced by the success of last season's crop, are turning their steps towards the Canadian Northwest to new homes. Hnn. Manning, Prince Albert is a good name and more if she can should at the present is the proper time for operations for this reason, that it is at this season of the year that the determination to seek new homes in the West is arrived at by many people in the East, and it follows that the most opportune time to strike is just when the conclusion to emigrate has been reached and before a definite location has been decided upon. The question of settling up our vacant lands with good settlers is undoubtedly the most important one to the whole community at the present time, and THE TIMES believes and would recommend that renewed action be taken at once to that most desirable end. Certain it is that if action be deferred until the tide of immigration has set in, we shall fall short of the portion that should justly fall to us. Judging from past results, the present committee with the experience they have gained, with perhaps the addition of a few new members, and more more money at their command, could carry on this important work with satisfaction to all.

OUR PROSPECTS.

The London *Free Press* says:—"Mr. Charles T. Glass, ex-alderman, who has recently returned from an extended trip through Manitoba and the Northwest Territories to the Pacific coast, brings back the best assurances that that country is "all right" in the fullest and most satisfactory meaning of the term. In reply to a few questions, Mr. Glass told a *Free Press* representative that the 200,000 people who constitute the population of the Northwest would ship twenty five or thirty million bushels of wheat, as a result of this season's crop, and the money realized from that would give them great prosperity this year. Talk about investments, said Mr. Glass, I happened to know that a member of the Liverpool Stock Exchange—a man who has lived in Canada, too—sent out $25,000 the other day to be invested in Manitoba land. This gentleman says that Manitoba and the Canadian Northwest are in the mouths of everybody in the business centres of Great Britain, and he predicts such a rush of emigration to Canada in the spring as will transcend the highest mark ever reached in the United States, while the people who are coming are the very flower of the agricultural and mechanical classes. The volume of immigration from Dakota would surprise you. The railway companies are working in Dakota, too, and before the present movement subsides there will be a very large proportion of the population of that state settled over the Northwest. Most people will understand the significance of the statement that many old executions in the sheriff's offices, covered with the dust of years, are being paid off. I know no better sign of the general prosperity of the country than that fact."

The above is but a sample of similar items appearing daily in the Canadian press. Even the most sanguine friends of the Northwest will be astonished at the strides towards settlement which the country will take in the near future. Letters of enquiry are being received by many citizens as to the advantages offered settlers by Prince Albert. In another column we call the attention of the public to the good work done in the past by having a committee of citizens with funds to spend in the work in charge. This year the chances for securing settlers will be greater than hitherto, and organization should be effected and work begun immediately. Regina and other districts have paid agents and spend large amounts in the prosecution of this work. If Prince Albert desires to hold her own as she has more than done in the past a big effort should at once be put forth.

THE ASSEMBLY.

MONDAY, Dec. 28.

Mr. McKay presented a petition praying for the surveying and the making of permanent improvements on the road between the town of Prince Albert and the Shell River district.

Mr. Cayley from the Committee appointed to draft a reply to the Speech of His Honor the Lieutenant Governor, presented a draft reply, which was ordered to be printed.

Mr. Prince moved the second reading of Bill (No. 6) respecting Deputy Sheriffs and Deputy Clerks of the Court.

Mr. Haultain protested against the principle of the bill, as it would cut off a large part of the income of the, at present, four or five clerks of court and sheriffs without giving them any compensating advantages. Of course officials and their fees must give way to public convenience, still there must be very strong grounds of public convenience before this House stepped in and coolly cut off a large portion of an official's legitimate earnings. He did not think the effect of the Bill had been properly taken into account and he urged that consideration of the measure be held over.

Mr. Tweed, while agreeing with Mr. Haultain to a certain extent, called attention to the great distance that Medicine Hat and other places were from the court centres, and held that requirements of Medicine Hat demanded the appointment of officers such as contemplated by the bill.

Mr. Betts said that the present clerk of the Prince Albert district did not draw sufficient fees from his office to live upon, and while no doubt certain districts, for instance Battleford labored under inconveniences for want of a deputy clerk and deputy sheriff, still the House should see that, in making any change, no injustice should be done to the present officials.

Mr. Clinkskill said he was willing that the bill be laid over.

Motion for second reading allowed to stand.

Mr Jelly moved the second reading of Bill (No. 5) respecting the herding of animals.

Bill read the second time.

House resumed Committee of the Whole on Bill (No. 10) to incorporate the town of Edmonton.

By consent the second paragraph of the clause in section one was struck out and an amended paragraph substituted.

Dec. 29 h.

Mr. Haultain presented reports from the Standing orders and Library Committee recommending the following petitions, viz:

For the incorporation of the Rancher's Club.

For the incorporation of the Diocese of Calgary.

For the incorporation of the Saltcoats Dairy Association.

Mr. Davidson gave notice that he would to morrow ask leave to introduce a bill to amend the Municipal Ordinance.

Mr. Reaman gave notice that he would ask leave to introduce a bill to render the incorporation of the Saltcoats Dairy Association valid.

Mr. Cayley gave notice that he would ask leave to introduce bills to incorporate all the Ranchmen's Club and also the Diocese of Calgary.

Mr. Betts moved that an humble address be presented to His Honor the Lieutenant Governor praying that he will be pleased to lay before the House copies of all reports in his possession connected with the Advisory Council delegation which visited Ottawa during the last session of the Federal Parliament.

Mr. Tweed asked the hon. member for Cumberland if he would have any objection to change one of the words. He did not wish to move an amendment but it appeared to him that the word "delegation" was not a proper one. If he understood the meaning of the word, a delegate was one sent by and charged with powers prescribed by somebody else. He could not see that this Advisory Council had any power to send a delegation to Ottawa to express their views. If His Honor the Lieutenant sent this so called delegation, it must have been to press his own views upon the Dominion Government but if there had been one contention more than another during the last two or three sessions of this House it was that His Honor while an executive officer, was simply a servant of the Dominion Goverment. Now, it was a well known thing that servants had only to serve their masters; but according to this motion a servant was forcing his views upon his master in delegating two of the Advisory Council to go to Ottawa to press their or his views upon the Dominion Government. If the hon. member for Cumberland would use the word "ambassadors" instead of "delegates"—for they were ambassadors from the vice-regal court at Regina, to the vice-regal court at Ottawa (laughter) he (Mr. Tweed) would be satisfied, and offer no objection to the motion.

Mr. Haultain said he would like the motion to ask for other information as well as simply the reports of the delegates, he wished the motion enlarged, and ask for all letters, documents, correspondence, the minutes of the Advisory Council relating to the appointment of the delegation, a statement of the capacity in which the delegation acted, and also, a detailed statement of the expenditure connected therewith.

Mr. Betts said the suggestions of the hon. gentleman who had just taken his seat were pertinent to the question, but the remarks of the hon. gentleman who preceded him were not. The notice he (Mr. Betts) had put upon the paper was very clear and distinct. He was anxious as a member of the delegation, that his position should be put in a proper light and had intended that the report should have been asked for earlier in the session. With regard to an account of the expenses of the delegation, that would appear in the public accounts. If the hon. gentleman from Medicine Hat was serious he evidently realised the importance of the delegation as he styled the members of it "ambassadors." The delegation went to Ottawa prepared to do certain work, and they were now anxious that their report should become public property. Referring to the minute of Council which the hon. member for Mc Leod asked for, he thought that every member would bear him out in saying that this was the first time a minute of Council had been asked for by the House Still he had no objection to any suggestion that would make this motion as complete as possible. He believed there were hon. members of the House who were anxious to have before them the report made in connection with that delegation.

The motion was amended in accordance with Mr. Haultain's suggestions, and passed.

Mr. Cayley moved that the petitions in relation to the incorporation of the Diocese of Calgary and the incorporation of the Ranchmen's Club be received. Carried.

House resumed Committee of the Whole on Bill (No. 5) respecting the herding of animals.

Mr. Jelly moved that the word "majority" be substituted for the word "two-thirds" in the second line of clause two. This referred to the number of signatures of occupiers required to applications for the erection of herd districts.

After some discussion a vote was taken on the amendment, and a tie resulting, the Chairman voted against it and declared the amendment lost.

House adjourned

DICK'S

UNIVERSAL REMEDY FOR

HORSES AND CATTLE.

DICK'S BLOOD PURIFIER will remove all signs of Fever in Horses and Cattle, and consequently prevent any disease that may be going about. We are pleased to see the number of our young men which every evening make their way to the rooms of the free reading room, thereby showing their appreciation of the efforts of the promoters, whom we trust will be sufficiently backed up by a generous public to keep this institution alive.

On Monday evening last a pleasant time was spent at the Methodist parsonage, the occasion being a reception given by Mr. and Mrs. Stacey for the purpose of affording an opportunity to members of the congregation and others to make the acquaintance of the newly arrived minister to take charge of the Island Lake district.

Reid's survey party, who have been working in the Shell River district for the last three months, returned to town Friday last, having completed their labors for this season. They surveyed and laid out about a township and a half, which is now ready for entry. We hope to see the same party sent out early next spring, with instructions to lay out a dozen townships at least in the same locality.

Grip offers prizes of $30, $20 and $10 for the best short humorous article, story, poem, narrative or character sketch sent in before March 1, 1892. The prizes will be awarded not so much on literary merit, as upon the humor and aptness of the concept. Professional writers being debarred, there is a fair field for all of a literary turn. Here is a chance for young writers to test their abilities. See announcement in *Grip*.

CIVIC ELECTIONS.

THE NEW TOWN COUNCIL.

The elections for our civic board came off on Monday last, and the most noticeable feature was the quietness and good order which prevailed the entire day throughout the town. Ex Councillor Donaldson having been elected Mayor by acclamation seems to have taken the keen edge of the interest usually displayed in these elections. When the time for opening the polls arrived, it was found one opposition in No. 1 Ward had been withdrawn, and Capt. Smith secured the seat without further contest. There being opposition in the other three wards the tug was kept up until time was called by the different deputy returning officers, when the most exciting part of the day's proceedings—the counting of the ballots—was commenced. The "Fish pond" (No. 2) was the centre of attraction, as there the hardest fight had been made. The result of the count showed that Mayor Donaldson will have four experienced men to assist him, dessrs. Baker, Mair and Macdonald, while Capt. Smith has seen service in "furrin parts." The new Councillors are Messrs. Fish and McLeod, both experienced and careful men. Taken altogether, the Council for 1892 are composed of gentlemen whom we have no doubt will give a good account of themselves during their term of office. The following is the result:

Mayor—S. J. Donaldson, by acclamation.

HAPPINESS.

Happiness often consists in reading a good paper, one that leaves a pleasant taste in the mouth, one that you can rise up from perusing with the knowledge that you have gained something of permanent advantage. There are papers which do not give this happiness, but which, while exciting for the moment, result in permanent evil, although the immediate effect at the moment may not be apparent. The Montreal WITNESS is a paper of the former class. It is good; it does good. The Weekly edition is sent to subscribers for one dollar a year, the Daily for three dollars, and the NORTHERN MESSENGER, a paper for the younger members of the family particularly and for Sunday Schools, for thirty cents a year.

The subscribers of THE TIMES can have it and the Montreal DAILY WITNESS for $3 50, THE TIMES and the WEEKLY WITNESS for $2 25, and the MESSENGER with either of the for 25 cents extra.

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees.

A Germ Disease.

The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expells them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well.
